312 056 000

Kit equipped with:

- n. 15 oil sump plugs: n.1 M10x1,25; n.1 M12x1,5; n.2 M14x1,25; n.4 M14x1,5; n.4 M16x1,5; n.1 M18x1,5; n.1 M20x1,5; n.1 M22x1,5
- n. 25 copper gaskets: d.10 mm, 16x1,5

These plugs eliminate messy oil changes, stripped threads and loose plugs, taking the place of the factory oil plugs. Threads' measure is the same but with an increased tolerance. Using this plugs, holes and threads remaking is not required; the plugs have to be mounted directly. Each plug is made up of 2 parts. After mounting operations, the external plug remain fixed to the oil sump while the internal one is used for oil changes.

Oil Filters

NEW PRODUCT

312 056 002
